## **International Students contribute \$20.2 billion to US economy in 2010/11**

Posted on [March 5, 2012](#)

Boosting the presence of international students is beneficial to the economy, as demonstrated in the latest [report](#) on the economic contributions of international students in the US

According to a recent report, the US economy international students contributed nearly \$20.2 billion to the US economy. More than 70% of all international students' primary funding comes from sources outside of the United States, according to [Open Doors](#), an information resource of the Institute for International Education and funded by the US Department of State.
